CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with a strong interest in emerging technologies, embedded systems, and innovative engineering solutions. Passionate about continuous learning, problem-solving, and applying technical knowledge through practical projects. Seeking opportunities to enhance my skills, contribute to impactful projects, and grow as a competent and innovative engineer.

EDUCATION

Dr. N.G.P INSTITUTE OF TECHNOLOGY (B.E ECE)

2023 - 2027

COIMBATORE , TAMILNADU

CGPA : 7.54

SAKTHI VIGNESHWARA KALVI NILAYAM (SSLC)

2021 – 2023

TIRUPUR , TAMILNADU

PERCENTAGE : 79.5%

INTERNSHIP

ROBOMIRACLE TECHNOLOGIES Pvt Ltd, Coimbatore

JUN 2025

- Completed a 15-days of internship at **ROBO MIRACLE TECHNOLOGIES** from **9.06.2025 to 26.06.2025**, where I gained practical exposure to real-time technical applications and hands-on project development. The experience helped me strengthen my problem-solving skills, teamwork, and understanding of industry- oriented workflows.

TECHNICAL KNOWLEDGE

- Languages Known : C (Basics)
- Tools : Ansys HFSS , Solidworks, Fusion 360
- Network theory
- Analog and digital electronics
- Microcontroller (8086/ 8051, ARM)
- Quick learner and versatile
- Leadership skill

PROJECTS

DESIGN OF COMPACT HEXAGONAL FRACTAL ANTENNA (2.4GHz) 2025 – MAY 2026 **STATUS : DESIGNED AND FABRICATED**

- Designed and simulated a compact hexagonal fractal antenna using Ansys HFSS and Fusion 360 for GHz-frequency applications. Achieved improved bandwidth, optimized gain, and enhanced high-frequency performance through fractal geometry design.

PATIENT MONITORING SYSTEM USING RASPBERRY PI AUG 2024 – MAY 2025 **STATUS : COMPLETED**

- Designed and simulated a microstrip patch antenna using MATLAB for efficient wireless communication applications. Analyzed radiation patterns, return loss, and impedance matching to validate antenna performance.

SMOKE DETECTOR SYSTEM SEP 2023 – JUN 2024 **STATUS : COMPLETED**

- Developed a Raspberry Pi-based patient monitoring system with GSM alerts for real-time tracking of heart rate, body temperature, and oxygen saturation, enabling timely emergency notifications and remote healthcare monitoring.

CERTIFICATION

- **NPTEL Certification** – Introduction to IoT4.0
- **Udemy** : Analog Electronics
- **Presentation** : Paper Presented in National Level Technical Symposium "INFERIX'24" at BIT.
- **Workshop** :
- Sri Krishna Collage of Technology – IoTwith raspberry pi
- Sri Krishna Collage of Technology – Circuit voyage
- IIT Palakkad – NextGen AIML in IoT

ONLINE CERTIFICATES ON :

- Great Learning, Microsoft, Google Cloud , Mathworks, Bently, UiPath, MongoDB

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I assure that the information provided is accurate and complete.
